Submission to the Electoral Matters Committee Inquiry into the Impact of social media

Parliament of Victoria  
Electoral Matters Committee  
Parliament House, Spring St  
EAST MELBOURNE VIC 3002

To whom it may concern,

I use Social Media a lot to promote my likeness for my friends, discuss and have a good time on it with family. I like the way Australia and Italy (my homeland) when I grew up in is working as a team along with other countries to stop global terrorism which remains a problem in here.

I reckon that I should speak out against doing videos on terrorism and do like a traffic light system to see if they are good, to post or not to ensure we're safe and being good to others.  
Thank you! ciao!

P.S. I want all politicians and councillors to not display fake figures but use trusted sources and have good language when talking to people on social media and of course in public.
