I wish to voice my concerns of the lack of transparency of the money spent at Leroy Park, Yerang falls & koornalla Park after the Black Saturday Bushfires. There was supposedly a surplus of \$150K at the end of 2012 to spend on these parks. There was a request by council in early 2013 for contractors to supply invoices back dated for work.

I am on the understanding the contractors were paid in advance in particular for weed control services for 3 years. Through freedom Of Information the last report was September 2013 work on going the contract was to the end of Dec 2015. Concerns that the work was never completed.

Also concerns that the contractor was paid 3 years in advance for work without any supervision.

These parks excluding 1 are bushland with very little visitation by people.

I would like to be included into the inquiry & would like to be on committee where there is transparency.
