Climate Change Inquiry
Submission S157
Received 12/02/2020

[REDACTED]
[REDACTED]

Greetings to LA committee on Environment & Planning

I make a submission to Inquiry into tackling climate change in Victorian communities.

Submission by

Mr Peter Dixon [REDACTED]

On behalf of a Wodonga men's group

Knights of the Southern Cross Northern 8 District.

Terms of Reference

...what ... regional communities are doing to tackle climate change and how Vic Gov could support these ...

Submission content

KSC N8 vic are a community group with many goals including to promote the advancement of Australia. One advancement is to improve productivity and efficiency in the workplace, and in UTILITIES supply of gas & electrical energy.

We are endeavouring to understand the true science behind climate studies, but the related media output contains too much opinion and clutter for easy sorting of the facts.

We will feel beneficial interface with the Victorian Government if you are able to encourage the scientific institutions of Victoria and Australia to prepare SUMMARY OUTLINES, and separately DETAILED PRESENTATIONS of the SCIENTIFIC FACTS behind climate science, without the clutter of hypothesis, theory, opinion. We will feel supported if you publish links to these documents on a Government website for climate studies.

We look forward to your timeline for achieving these outcomes.

Regards,

Peter Dixon. DC N8
