I believe that racial and also religious oppression is a major problem in our society, and that we must take this step in order to help people of colour, and religious communities not only in Australia. I have seen a lot of discrimination, particularly towards black people, in Australia and it is going unnoticed. People of colour, as well as Muslims, are slowly becoming desensitised which isn't right at all. It forces a "false-peace" upon us and, as a Muslim myself, I refuse to watch this happen.

I have decided to attach Martin Luther King Jr.'s "Letter from Birmingham Jail" as an example of this false-peace and how it can be a problem in our society.

Thank you.
