Go away with your b/s ; all you criminals want to do is to exterminate Australians by having them terrified of their own shadows. All you do is facilitate the replacement of Australians, whose ancestors clearly died for nothing in the wars of the last century, with savages from Africa, the Middle East, South Asia, who do home invasions, carjacking, maraud the streets, beating Australians up as they go. weve already had your equally criminal friends drive thru shopping crowds in Bourke st and Elizabeth st 3yrs ago, with a bombing a year later, and the savage shot dead. Why don't you traitors pack up and leave the country as all you're doing is destroying it as fast as you can.
