Dear Committee Members,

As a resident of this planet who is concerned about the wellbeing of the environment on which we depend for our sustenance, I am concerned about the threat to our fragile wetlands from the plans to park a gas ship in Westernport Bay.

Please consider turning your attention to less destructive means to power our community. We are also doing our best to reduce our reliance on fossil fuels in order to preserve what is left of the natural world which is integral to our survival.

Thank you,
Guna Green.
