### **YOUR SUBMISSION**

**Submission:**

I am an Australian citizen residing overseas in the USA. One of the best things about Australia (and something I miss greatly living away) is its diversity of flora and fauna. I recently read an article on social media describing the 27,000km journey of a single migratory bird in one breeding season. This is incredible! Can you imagine what it would be like to arrive home after such a long journey to find your home destroyed? Australia wildlife deserves protection so that Australia can maintain its amazing biodiversity. Please support the protection of Ramsar sites.
