YOUR SUBMISSION

Submission:

The current government needs to finally end to duck shooting - a cruel, unnecessary activity which has no place in our state. It destroys our native creatures, encourages violence and deters visitors to rural areas who want to appreciate the natural assets.

Richard Kingsford Smith has present alarming figures which indicate a 90% drop in waterbird numbers due to changing climatic conditions. To allow the wanton slaughter of our waterbirds in 2020 is irresponsible and barbaric.

The majority of Victorians who feel this activity has no place in our home state and call on the government to take whatever step are necessary to end duck shooting.

Please stand amongst those who are compassionate and forward thinking. Victoria deserves better and the right time to do this is now.

Do you have any additional comments or suggestions?:

Please end duck shooting in Victoria. The money spent on propping up the few who still wish to partake in this cruelty and violence could be much better spent promoting our beautiful regional areas.
