YOUR SUBMISSION

Submission:

Please find attached a summary letter regarding some of our concerns re the Gippsland Lakes Ramsar site. Only 2 supporting documents have been uploaded but many more are available. We look forward to the outcome of the hearing.

Do you have any additional comments or suggestions?:

That a robust independent scientific audit (The CSIRO did one in 1998) is conducted in the Gippsland Lakes alongside Ramsar requirements to provide current evidence, recommendations and baseline measurements to inform future environmental management practices and attract scientific research into the Gippsland Lakes, its catchments, coast and wetlands.
