YOUR SUBMISSION

Submission:

Outrageous that Duck shooting should continue lawfully in Victoria. Active Ducks are impacted by drought, land clearance and interference to waterways across Victoria. Scientific research and species data basis confirm that waterfowl are under genuine population pressure. Australia's records of species extinction are appalling. We have responsibilities to manage for biodiversity and ecosystem sustainability. Time to abolish Duck shooting as culturally irrelevant and a blight on our environmental management in Victoria and more widely Australia.

Do you have any additional comments or suggestions?:

Time to make the lawful change.
