**Subject:** No Jab No Play - violation of human rights

Good morning,

I am writing in relation to No Jab No Play policy which is a breach of human rights and a great concern for the families of Australia.

This proposed policy discriminates against families that do not wish to proceed with a medical treatment i.e. vaccinations.

This removes the choice for a lot of people, why should people be forced to quit work due to no childcare options?

No one should be coerced into any medical procedure if they do not wish to do it.

I think this is insanity that it is even being considered.

Where there is a risk there must be a choice!!
