

5th of October, 2015

To the Committee Secretary,

I am writing to you in regards to the No Jab No Play legislation and how it is a direct violation of our human rights, such as:

The International Covenant on Civil and Political Rights
International Covenant on Economic, Social and Cultural Rights
The Convention on the Rights of the Child

The Nuremberg Code states that:

The voluntary consent of the human subject is absolutely essential. This means that the person involved should have legal capacity to give consent; should be so situated as to be able to exercise free power of choice, without the intervention of any element of force, fraud, deceit, duress, over-reaching, or other ulterior form of constraint or coercion; and should have sufficient knowledge and comprehension of the elements of the subject matter involved, as to enable him to make an understanding and enlightened decision.

The No Jab No Play legislation violates our civil liberties.

It is our human right to have a choice of what medicinal or surgical procedures are given to us and our children.

It is common knowledge and widely accepted that all medical interventions have risks. This is why before any medical procedure we are asked to consent and are not coerced into a procedure that we do not feel comfortable with.

Unfortunately, the new proposed vaccination legislation pressures a parent into accepting something they are not comfortable with.

If this law is passed do we not have a right to have a Vaccine Court as they do in America established in 1986 under the National Childhood Vaccine Injury Act?

Yours Sincerely
Lemona Haitidis
