Subject: Vaccination

Dear parliament,

We should all have the right to choose when it comes to our health.

This is a violation to freedom to impose vaccination to any human on this planet when we all have different metabolism and people can be allergic to it. Or simply have a different point of view when it comes to health.

Vaccinations has been proven in many cases to be affecting health .

My own mum almost died from an oedema in her lungs after vaccination when she was young and then got very sick after the only flu vaccination she was injected with .

CHOOSING TO VACCINATE OR NOT IS A HUMAN RIGHT AND CANT BE FORCED UPON.

King regards
