Dear Ms Blandthorn,

I am writing to you as I am very concerned about the Victorian Governments proposal to enact "no jab, no play" laws, which would ban non- vaccinated children from daycare and kindy.

These laws are discriminatory, insulting, demeaning and creating a very slippery slope where the government is encroaching on parental rights to make medical decisions for their children.

There can be no stripping of rights to make informed medical decisions. Parents are the only ones who can make such decisions for their children. Coercion, threats and penalization does not make informed consent.

Please remember that you are governing for the people, and our rights must remain intact.

Regards,
