- 23 **THE GOVERNOR'S SPEECH** — The Speaker reported that today the House attended the Legislative Council Chamber, where the Governor was pleased to make a speech to both Houses of Parliament. The speech was as follows:

*Honourable President and members of the Legislative Council:*

*Honourable Speaker and members of the Legislative Assembly:*

I would like to acknowledge the traditional owners of the land on which we stand, the Kulin Nation.

The general election on 27 November resulted in a change of government in Victoria. Following the election I commissioned the Leader of the Victorian Liberal Nationals Coalition, Mr Ted Baillieu, to form a government.

Accordingly, I have called you together on this day, the first session of the 57th Parliament, to outline the policy agenda and legislative intentions of this new government in its first term.

The government's agenda will be based upon the principles of responsibility, fairness and respect. The government will carry out its responsibilities with stability, dignity, certainty, and commonsense. Victorian families will be listened to and their interests in what matters to them will be respected and honoured. This will be a government of inclusion and transparency, a government for all Victorians and for all families.

The government will be focussed on fixing the problems to make a change for the better and build a positive future for Victorian families.

The government understands that there is great community concern about street violence and violent crime, regular failures in transport and health systems and increasing pressure on family budgets.

The government will meet these significant challenges by focussing on five goals for a stronger, fairer and safer Victoria.

## **1. A growing economy**

The government is committed to building a stronger Victoria: a state of expanded opportunity and greater certainty, which leads the nation based on the energy of its economy, the cohesion of its society and the quality of its governance.

The government understands that rising living costs are hurting families and recognises that long-term youth unemployment can seriously undermine the economy. That is why job creation and skills training for young Victorians will be a priority, and business investment will be strengthened to secure the jobs that Victorian families rely on.

### **Financial management including the economy and innovation**

The government will work to build a stronger economy with sustained growth and commit to an annual minimum budget surplus of \$100 million. This commitment is made based on transparency, accountability and responsible financial management, and is part of a financially responsible management plan for the state's finances and a clear plan for debt management.

The government will manage Victoria's finances with a strong plan to deliver improved services and reduce waste. It will reduce the regulatory burden to improve Victoria's competitive position.

The government will cut stamp duty rates for first home buyers purchasing principal places of residence valued up to \$600,000, with the first home buyers grant and the bonus for new homes continued.

There will be a year round 17.5 per cent electricity price reduction for concession card holders and ambulance membership fees will be cut in half for all Victorians.

The fundamental purpose of the government in the economy is to foster the creation of wealth, products and jobs by individuals in the private sector, and encouraging innovation to help deliver sustainable prosperity through higher living standards and greater employment growth.

The government will reduce waste and use the savings to increase resources for community safety, schools, hospitals, and other public services year on year, allowing doctors, teachers, nurses and police officers to help Victorians in their daily lives.

A competitiveness report on the Victorian economy will examine state taxes and regulation, the quality and price competitiveness of Victoria's infrastructure services and our education and skills bases.

### **Regional and rural Victoria**

The government will establish a \$1 billion Regional Growth Fund to support regional Victoria and create new prosperity, more opportunities and a better quality of life. The fund will deliver money over eight years to build and upgrade local services and infrastructure, invest in local skills and industries to promote jobs, and help local communities devise positive responses to disadvantage.

The government will introduce stamp duty relief for young farmers and reinstate funding for the Victorian Young Farmers organisation to encourage Victoria's young men and women to pursue a future in the food and fibre industry.

\$160 million will be invested into country roads and bridges to ease the burden on rural councils and \$100 million will be invested over the next four years to extend natural gas to encourage greater investment across regional Victoria and reduce energy costs for Victorian families.

## **2. Services that work**

### **Transport**

During its first term, the government will begin the process of rebuilding the public transport network. Significant investment and a clear plan are needed to meet future growth in commuter numbers.

The government will create a new independent public transport authority — the Victorian Public Transport Development Authority — to integrate the current multiple public transport agencies and authorities and administer all metropolitan trams, buses and trains and regional trains and buses.

The government will invest \$900 million for rail asset renewal and maintenance, including a new \$100 million Maintaining Our Rail Network Fund administered by the Victorian Public Transport Development Authority, to increase maintenance of tracks, points, ballast and other rail network basics so that passenger comfort will be improved and reliability increased.

The government will purchase new trains for the Melbourne suburban network to move more passengers during peak hour in safety and comfort and allow for more frequent services on Melbourne's suburban lines.

In addition, the government will plan a rail link to run from the city to Melbourne Airport. The government will also start building a new rail line to link Avalon Airport to Melbourne and Geelong and secure Avalon's future as Victoria's second international airport.

The government will make the public transport system safer through its \$200 million four-year Stopping Crime in its Tracks plan. One hundred additional Victoria Police Officers will be recruited to join the Transit Safety Division, bringing to 350 the total number of officers patrolling the entire train, tram and bus networks at all times. The government will also put 940 Victoria Police Protective Services Officers on the train system — on every train station in metropolitan Melbourne and the major regional centres from 6pm to the last train, seven days a week.

---

## Community safety

The government will deal with serious crime in this state, so that individuals and families can feel safe on the streets and in their own homes. This commitment will put more police on the streets, introduce a zero-tolerance approach to enforcement and bring sentencing more in line with community expectations.

The number of frontline police will be boosted by an additional 1,700 recruits in the government's first term. This unprecedented investment in policing will protect communities across Victoria and will be the largest single increase in frontline police numbers over one term of government in the history of Victoria.

The government will also introduce tough new offences to specifically target violent and aggressive behaviour, particularly around licensed venues.

Violent drunks will be banned from licensed premises for two years. Venues that do not comply will be shut down with tough new liquor licensing laws that punish repeat offenders with automatic licence suspensions through a demerit points scheme, while good venues will be rewarded. The government will also focus on young people and binge drinking including the introduction of legislation to control the secondary supply of alcohol.

The government's commitment to community safety will also bring sentencing more in line with community expectations. The government will abolish suspended sentences, end existing home detention laws, reform the law of double jeopardy, crush the cars of repeat hoon drivers and enforce a strong zero-tolerance approach to hoon driving.

Baseline minimum sentencing will be introduced for serious crimes and thugs who inflict gross violence on their victims will face at least four years in jail.

The government will invest in Victoria's prison capacity to ensure that those who commit violent and other serious crimes can be securely housed in Victoria's prisons.

These reforms are significant, wide-ranging and practical approaches to making Victorians feel safe again.

## Planning

The government will actively plan for Melbourne's future growth, consult with the community, and develop opportunities for new housing in growth areas, activity centres and through urban renewal.

The government will establish a new Urban Renewal Authority to identify inner urban areas that may be suitable for large scale urban renewal, and then manage the transition of these areas to a mostly residential base.

The government will establish a mechanism for urban renewal in urban areas that traditionally have an industrial base but can accommodate change similar to the Docklands, to take the pressure for high density development off many existing suburbs.

The government will allow the adjustment of the Urban Growth Boundary in growth areas to accommodate logical inclusions and will develop a population strategy for all of Victoria, not just for Melbourne. Importantly the government will protect the heritage character of Victoria.

## Health

The government is committed to fixing Victoria's health system and reducing waiting lists. Through a \$1 billion Health Infrastructure Fund provided from the sale of electronic gaming machine licences,

public hospitals will get more beds and better facilities. Patients will be better informed, with real-time waiting list and hospital figures to be available online, making hospital waiting lists more accessible and transparent.

The government will produce a state-wide health plan, build better health facilities in Melbourne and rural and regional Victoria, upgrade or replace a range of ambulance stations, as well as boosting ambulance and Mobile Intensive Care Ambulance paramedic numbers, to reduce delays.

With mental illness touching every Victorian household in some way and one in five Victorians likely to suffer from a mental illness at some stage in their lives, the government will ensure that Victorians with a mental illness in rural and metropolitan areas receive appropriate inpatient and community-based care.

The government will also support early intervention youth mental health initiatives and establish three new mother and baby units in regional Victoria for women with post natal depression.

## **Education**

The government will provide the best possible education standards and facilities for all students, giving parents choice and ensuring first-rate teachers are valued and given the support they need. Independent and Catholic schools will also be supported for the important role they play in the system.

The government will recruit additional mathematics and science teachers, and 400 teaching scholarships will be offered to science graduates. The government will also fund a major expansion of language education in primary and community language schools because it recognises that fluency in languages is important to build Victoria's future.

The government will fund an additional 150 Primary Welfare Officers to provide early diagnosis and referral for students with behavioural, mental health and welfare problems.

The government will also give principals and school communities greater decision-making power in how they run their schools effectively.

## **Community services**

The government recognises the critical importance that community services play in caring for Victoria's most vulnerable individuals and their families and is committed to providing effective, efficient and responsive community services.

The government will undertake a comprehensive judicial review of Victoria's child-protection system. The review will assess the system, examine all reports and reviews made to date and engage with service providers, child-protection workers, families and young people, to identify the key gaps and recommend key strategies to fix the problems.

The government will also initiate new approaches towards preventing the abuse of children and supporting vulnerable young people in out of home care.

The government will provide leadership in the coordination of mental health, drug and alcohol services, child-protection, family violence and education services to deliver a holistic approach to supporting at-risk children, young people and families.

The government will lead and drive the implementation of a new National Disability Insurance Scheme to ensure that people with a disability and their families and carers have the lifetime support they need.

### **3. Strong families and vibrant communities**

The government is dedicated to building a fairer Victoria, where every citizen has a real stake in this state's future. The government will invest in events to benefit the whole of Victoria and attract investment and jobs across the state. Coalition governments have pioneered major events in Victoria and the government will once again focus on creating an events schedule with wide community appeal.

The government has committed to a major investment in the Bendigo Showgrounds, Discovery Centre and Queen Elizabeth Oval, as well as securing the future of the Stawell Gift and boosting Ballarat Cup Day. Victoria's major events need a renewed focus to ensure opportunities for small business and the community are maximised, to share in the success of the state's sports, arts and cultural program.

#### **Multicultural Victoria**

The focus of the government's multicultural policy will be providing world-class services, in a culturally sensitive and appropriate manner, that recognises the needs and aspirations of all Victorians to participate fully in society. The government will revolutionise language education in Victoria by creating one of the world's most diverse and effective Languages Other Than English programs.

#### **Veterans' Affairs**

The government recognises the enormous role veterans have played in safeguarding our democracy. The year 2014 will mark 100 years since the start of World War I. As that date approaches, the Liberal Nationals Coalition will be working with veterans' organisations and the community to identify the best way to commemorate that anniversary.

#### **Arts**

The government will support Victoria's thriving, innovative, unique and prosperous arts and cultural sector. It will restore the Victorian College of the Arts' funding shortfall and ensure its long term future. Links will be built between Victoria and the thriving Bollywood film industry. Regional arts will also get a funding boost with a \$14 million investment.

#### **Bushfire response**

The government will ensure that the 173 people who lost their lives on Black Saturday are never forgotten. The government will deliver a safer Victoria by implementing all of the 67 Bushfires Royal Commission final recommendations.

A range of initiatives will be introduced to support bushfire-affected businesses and economies. The government will ensure that bushfire prevention is made a basic, year-round role of government.

Bushfire prevention will be made a core component of the State Budget process and considered, along with education and health, as a priority area for funding initiatives.

### **4. Secure water and a healthy environment**

The government will support a range of practical measures to deliver commonsense environmental improvements.

#### **Water**

The government understands the challenges food producers face when water allocations are low. Water is the lifeblood of regional communities and the government will make the changes necessary

to ensure the water needs of all Victorians are adequately met.

The government will make sweeping changes to the management of rural water in Victoria and establish water substitution targets for 2015, 2020 and 2030 to reduce demand on Melbourne's potable water supplies.

The government will hold an independent judicial inquiry to investigate the probity of decision making in the implementation of the Food Bowl project and the North-South Pipeline and the social, economic and environmental impacts this project is having on communities throughout Northern Victoria. It will phase out Melbourne's reliance on the North-South Pipeline, using it only for critical human needs, and will continue to listen to communities opposed to the Guide to the proposed Basin Plan.

### **Energy and resources**

Victoria faces new energy challenges, including the need to avoid the threat of increasing blackouts, increasing price pressures, a need to secure new generating plants and upgrading the reliability of electricity transmission and distribution. The government will also work to promote cleaner coal generation while supporting renewable and other lower emission energy sources.

The government is committed to providing an affordable, reliable and sustainable energy supply for Victorians and fostering the efficient and responsible operation of Victoria's earth resource sectors.

### **Agriculture and the environment**

The government recognises the enormous contribution our technologically advanced and highly productive farm industries make to the state. Agriculture and associated food processing industries employ nearly 20 per cent of all workers in Victoria and make a huge contribution to the state's economy.

The government has identified specific initiatives for the future development and enhancement of Victoria's diverse and dynamic food and fibre producing sector.

The government will restore the Department of Primary Industries to its status as a major government department.

## **5. Government you can trust**

The government will set new standards on integrity, accountability and transparency. The government will act immediately to establish an independent broad-based anti-corruption commission, which will work to investigate misconduct and corruption across government.

Freedom of Information will be significantly strengthened and made more transparent through the appointment of an independent Freedom of Information Commissioner, whose office will oversee the administration of FOI.

Another major reform will be to advertising standards. The government will end the use of taxpayers' funds for self-promoting party-political advertising, introduce clear principles that all government advertising must comply with, and establish an Independent Government Advertising Review Panel to oversee, scrutinise and approve taxpayer-funded advertising to ensure that it accords with those principles.

I now formally open this Parliament, and pray that God may guide your deliberations.

Dear Speaker

#### **MEMBERSHIP — THE VICTORIAN HEALTH PROMOTION FOUNDATION**

The Victorian Health Promotion Foundation (VicHealth) is established under Section 16 of the Tobacco Act 1987 (the Act) to promote good health and disease prevention in the community.

Under Section 21(1)(f) of the Act, three (3) members of VicHealth are members of either the Legislative Assembly or the Legislative Council and elected by both houses jointly.

The previously elected Members are:

- Ms Kirstie Marshall, OAM MLA
- Mr Richard Dalla-Riva MLC
- Mr Hugh Delahunty MLA

On leaving Parliamentary office, irrespective of whether MPs are returned to Parliament, the positions are automatically vacated. Subsequently, VicHealth now requires the re-election of three new members.

I would be grateful if you could place this matter on the agenda for a Joint Sitting of both Houses. In order to maintain the membership of VicHealth at the optimum number I would appreciate if this matter could be resolved quickly.

I have forwarded a similar request to the President of the Legislative Council.

Yours sincerely

That this Parliament expresses our formal and sincere apology to the mothers, fathers, sons and daughters who were profoundly harmed by past adoption practices in Victoria.

We acknowledge that many thousands of Victorian babies were taken from their mothers, without informed consent, and that this loss caused immense grief.

We express our sincere sorrow and regret for the health and welfare policies that condoned the practice of forced separations.

These were misguided, unwarranted, and they caused immeasurable pain.

To the mothers and fathers who were denied the opportunity to love and care for your children, and for the pain and trauma you experienced, we are deeply sorry.

To the sons and daughters for whom adoption meant continual anxiety, uncertainty and the deprivation of a natural family connection — we offer our sincere apology.

Today, with all Members of the Parliament of Victoria gathered in this House, we acknowledge the devastating and ongoing impacts of these practices of the past.

To all those harmed we offer our heartfelt sympathy and apologise unreservedly.

We undertake to never forget what happened and to never repeat these practices —

Dear Speaker

**Elected member of the Board of the Victorian Responsible Gambling Foundation (Foundation)**

Mr Trezise recently tendered his resignation from the Board of the Foundation which was accepted by the Governor in Council on 20 May 2014.

I would be grateful if arrangements could be made for a Joint Sitting to occur, at the earliest time that is convenient for both Chambers, to elect a parliamentary member to the Board of the Foundation to fill the vacancy created by the resignation of Mr Trezise. I am writing similarly to the President of the Legislative Council and will send a copy of this letter to the Clerks of each House.
