7. HIS EXCELLENCY THE GOVERNOR'S SPEECH.—Mr. Speaker reported that the House had, that day, attended His Excellency the Governor in the Legislative Council Chamber, when His Excellency was pleased to make a Speech to both Houses of Parliament, of which Mr. Speaker said he had, for greater accuracy, obtained a copy as follows:—

MR. ACTING-PRESIDENT AND HONOURABLE MEMBERS OF THE LEGISLATIVE COUNCIL:

MR. SPEAKER AND MEMBERS OF THE LEGISLATIVE ASSEMBLY:

I have called you together for the consideration of important public business.

Shortly we will have the honour of welcoming to Victoria Her Royal Highness Princess Alexandra of Kent who has already endeared herself to many thousands of citizens, young and old, in other parts of the Commonwealth.

The Premier has recently returned to this State after leading a Mission to the United States of America, Canada, England, Scotland, Holland, Germany, France, Italy, Pakistan, and Ceylon. The political, industrial and financial contacts there made should be the means, not only of promoting further the goodwill existing between these countries and Australia, but also of ensuring a continued flow of capital to Victoria.

The industrial progress of the State and its sound economy are most encouraging. Many new projects have been commenced and others are proposed.

The influence of these developments is reflected in intense activity in all fields of building construction. At 31st March last, buildings to the value of nearly £120,000,000 were under construction in Victoria.

The Government is mindful of the need to encourage a more even distribution of population throughout the State, and the advantages of establishing industries in country areas are continually being indicated to manufacturers both in Australia and overseas.

The agricultural situation in Victoria is satisfactory despite a dry autumn generally and, in much of Northern Victoria and in East Gippsland, one of the driest winters for many years.

Valuable rains which fell in early August have enabled the sowing of crops to be completed under reasonably satisfactory conditions.

Despite dry conditions Victorian pastures carried stock into the winter in good condition, although the sheep population is the highest on record. This reflects the steady progress made in pasture development and management throughout the State.

The market for dairy products has improved and prices of butter and cheese have recovered strongly from the low prices at the beginning of 1958.

The comparable recovery in prices of dried fruit is also gratifying, and the early rise in wool prices is encouraging.

Altogether, in primary industry, on which the prosperity of Victoria so much depends, the State can look forward to the coming season with tempered optimism.

The Department of Agriculture has now established its Animal Husbandry Research Laboratory at Werribee. It has purchased a property of 836 acres near Hamilton for a Research Station for investigation in the fields of pasture management and animal husbandry. A grant of £20,000 has been provided towards the purchase of a property at Bacchus Marsh to be developed as a centre for the expansion of artificial breeding of dairy cattle. At Kyabram a property of 533 acres has been purchased for a Research Station for the study of irrigated pasture management.

The first stage of providing improved facilities and additional accommodation at Dookie and Longerenong Agricultural Colleges has been completed, and major building operations at Dookie are proceeding.

The Milk Board, in co-operation with dairy farmers and milk distributors, has recently undertaken an extensive publicity campaign to increase the sale of milk.

Excellent progress has been made on water supply works in all parts of the State, particularly for the extension of water reticulation and sewerage in country towns.

The Tullaroop Dam will be completed by the end of 1959. At Lake Corangamite, works designed to relieve thousands of acres of valuable agricultural land from flooding have been completed. The Cowwarr Weir which will divert water from the Thomson River for irrigation in the Nambrook-Denison soldier settlement area has also been completed.

The Government, recognizing that the sawmilling industry can be stabilized only by establishing forest crops on a scale which will assure a steady supply of timber, proposes to make available substantial sums to establish extensive softwood plantations and to regenerate milled forests of native hardwoods.

Throughout the eastern States, increasing interest is being displayed by industries which use wood as a raw material for the manufacture of fibre products such as paper, particle board, softboard, and hardboard. These industries employ a substantial labour force and are most appropriately located close to the growing trees.

The Government's proposals should further attract such industries by assuring a continuous supply of raw material. One large company has already decided to establish a hardboard plant at Bacchus Marsh utilizing pulpwood from the eucalypt forests of the Western highlands. An Act to authorize an agreement between the Government and that company will be introduced.

Soldier Settlement has now been in effective operation for some twelve years and in Victoria a sum of approximately £64,000,000 has been spent and some 6,000 ex-servicemen have been settled on the land.

This form of settlement, which has proved so successful, is now drawing to a close throughout Australia. But the Government proposes to embark on a scheme of general land settlement which will be available to ex-servicemen, and also to men who were too young to enlist.

Victoria's industrial expansion has been materially aided by the cheap and plentiful power derived from its own mineral resources.

The search for base metals is being continued and now constitutes a major part of the activities of the Mines Department.

Drilling for the location of workable deposits of moulding sands, concrete aggregates, and clays for ceramics and building materials is constantly in progress.

The search for road-making materials, such as crushed rock and similar quarry products, is continuing.

Geological investigations, followed by test drilling, are being maintained to assess the State's underground water resources.

The success of the Portland project, for which the recently purchased deep drilling plant was used, has assured an adequate supply of water for the Town.

As I forecast when I last addressed you, our population has continued to expand rapidly. I then indicated that Victoria was absorbing 40 per cent. of the migrants coming to Australia. This figure has increased to nearly 50 per cent. over the last twelve months. Such an increase has naturally placed heavy demands upon the Government, particularly in connexion with education and health services, housing, water supply, sewerage and power. The Government will give highest priority to the provision of adequate services, in particular to the construction of additional school accommodation, the recruitment and training of new teachers, and the provision of essential equipment.

In the financial year just concluded a record number of classrooms was constructed. The funds to be made available during the current year for new sites, new buildings and additional classrooms will greatly exceed the expenditure of any previous year.

The Health and Recreational School Camp at Somers will be opened before the end of this year.

Preliminary work for the establishment of the new Monash University is progressing. Priority is being given to the development of services and the Schools of Physics, Chemistry, Biology, Engineering, and Medicine.

The State Electricity Commission proposes to construct at Hazelwood in the Latrobe Valley a new 200,000 kilowatt power station which will be the largest such station in Australia. The Morwell Open Cut is being further developed to produce sufficient brown coal for this station. The first generating set at Hazelwood should be in service in 1964, and the project will, it is expected, be completed in 1970.

Good progress is being made with the major installations of the State Electricity Commission. Perhaps the most noteworthy achievement has been the completion of the Rocky Valley Dam in the Bogong High Plains, which will be the main storage for the Kiewa Hydro-Electric Scheme.

Electrification of the State is proceeding rapidly, and has been greatly accelerated by the splendid co-operation of prospective customers in the Commission's self-help scheme. The Commission is connecting annually to its system more than 30,000 new consumers, of which at least 3,000 are farmers.

The State's road system is being steadily developed. Over the last three years the amount spent by the Country Roads Board has increased from £8,000,000 to over £18,000,000 per annum, and it is anticipated that approximately £20,000,000 will be available to the Board in this financial year. Most of this money is spent on roads outside the metropolitan and urban areas of the State; and nearly half of the total funds available to the Board is used to subsidize country local authorities in their road development programmes.

The duplication of main arterial roads, such as the Princes Highway between Hallam and Oakleigh, and the Geelong-road for a greater part of its length, has contributed materially to free flow of traffic, road safety, and reduction of the costs of transportation. My advisers intend to continue this development, and particular attention will be given to grade separation at major level crossings in both metropolitan and country areas.

The Melbourne-Albury standard gauge project should be completed early in 1961. Track laying will commence in the near future, and a contract will be let for the installation of power signalling with centralized traffic control. In the construction of this railway some existing level crossings will be eliminated.

Progress has been made with the provision of a terminal for the Victoria-Tasmania vehicular ferries, the first of which is expected to be in operation before the end of this year. These ferries will not only increase facilities for tourist traffic to and from Tasmania, but will also greatly assist communications between these two States.

My advisers are giving special attention to the provision of Social Services in Victoria.

The hospital building programme is enormous. Major projects include the building of the new Children's Hospital, the completion of the new St. Vincent's Hospital, and the provision of new hospitals and extension or improvement of many hospitals in country areas.

New wards are under construction at the Kew Mental Hospital. Other extensions of mental hospitals are under construction or planned.

An important project which should be completed before the end of this year is the provision of a new Clinic for Alcoholics.

Plans have been made for the provision of additional beds for the aged, and the Housing Commission expects to build 200 "Darby and Joan" units for old age pensioners, and 100 "lone-person" units. My advisers are heartened by the support that local authorities are giving in projects to accommodate pensioners.

Ministers have for some time considered that the facilities in this State for Child Welfare are inadequate for existing needs, and are totally inadequate to meet the needs of a growing population. The Government has now adopted in principle a plan for the development of Child Welfare and Youth Services. In this plan special emphasis is placed upon the development to the utmost of the existing co-operation between the Department and voluntary organizations.

My advisers have been gravely concerned at the financial arrangements between the Commonwealth and the States. Since the introduction of Uniform Tax, Victoria has been constantly penalized because of its low level of spending in the pre-war and war years. Now, with its extraordinarily rapid development, the "growing pains" of progress are placing a tremendous burden upon the administration of the State.

At a Premiers' Conference in June last, representatives of the Commonwealth and the States adopted a new basis of income tax reimbursement for the next six years. This will reduce the disabilities suffered by Victoria under Uniform Taxation. But the Government believes that the solution of the problem of Commonwealth-State financial relations can come only with the restoration to the States of their right to impose a tax on incomes.

Under new Commonwealth Aid Roads Legislation which will operate during the current financial year, the distribution formula has been amended to include a factor for the number of motor vehicles registered in each State. This change will to some extent overcome weaknesses in the previous basis of distribution of road grants by the Commonwealth among the States. But even under the new formula Victoria will receive at the most 20 per cent. of the road funds made available by the Federal Government.

MR. SPEAKER AND MEMBERS OF THE LEGISLATIVE ASSEMBLY :

The Estimates of Revenue and Expenditure for the year 1959-60 which will be laid before you within the next few days have been framed with due regard to economy and the requirements of the State.

A Supply Bill to make further provision for the services of the current financial year will be laid before you early this month.

MR. ACTING-PRESIDENT AND HONOURABLE MEMBERS OF THE LEGISLATIVE COUNCIL :

MR. SPEAKER AND MEMBERS OF THE LEGISLATIVE ASSEMBLY :

The legislative programme to be submitted to you during the coming Session will include legislation to give effect to the proposed re-organization of the Children's Welfare Department, and a complete revision of the Mental Hygiene Acts and associated legislation.

My advisers intend to submit proposals to amend the Motor Car Act and, in particular, to simplify the registration of self-propelled agricultural machinery without fee and self-propelled industrial equipment at a nominal fee, to make concessions with regard to registration of veteran cars, and to change the system of registration of vehicles on hire purchase with a view to protecting the unsuspecting purchaser against a hirer who untruly represents that the car which he is selling is his to sell.

A Bill will be introduced to authorize the establishment of a power station at Hazelwood.

Much progress has been made by the Ministers of all States and the Commonwealth and their advisers in the project for Uniform Company Laws which was initiated by Victoria at a conference of Ministers recently held in Melbourne.

My advisers are giving particular attention to safety in industry. A preliminary measure dealing with lifts and cranes will shortly be brought before Parliament.

Amending Transfer of Land Bills will be introduced for the purpose, among others, of improving the procedure by which purchasers of "Own Your Own Flats" may obtain satisfactory certificates of title.

On the recommendation of the Statute Law Revision Committee a Bill will be submitted to adopt provisions on the general lines of the United Kingdom Law Reform legislation to deal with the adjustment of rights between parties to contracts which have been frustrated or have become impossible of performance.

Legislation to clarify the rating provisions of the Water Acts and to vary certain irrigation districts will be introduced.

Bills dealing with the following subjects will also be submitted :—

- War Veterans' Homes Trust
- Mines
- Coroners
- Crimes (Penalties)
- Superannuation
- Police Offences (Penalties)
- Geelong Trades Hall Council Trustees
- Soldier Settlement
- Yarra Park and Richmond Park
- Talbot Colony of Epileptics
- Off-Course Totalisator Betting
- Soil Conservation
- Valuer-General
- Public Library and National Museum, and Administration and Probate.

I commend to your earnest consideration these and other measures that will be brought before you, and trust that, under the blessing of Divine Providence, your deliberations may conduce to the continued prosperity of the country and the welfare of the people.

DALLAS BROOKS,  
Governor of Victoria.

Melbourne, 1st September, 1959.

THURSDAY, 19TH MAY, 1960.

Debate ensued.

[Mr. Speaker left the Chair at fourteen minutes past One o'clock a.m. and resumed it at forty-two minutes past One o'clock a.m.]

Mr. Speaker said—

On the point raised by the Leader of the Opposition, my ruling is that the Legislative Assembly may consider the Bill presently before the House, and my ruling notes three considerations. The first is the legality, the second the practical economic effect, and the third the question of precedent. This Bill does not appropriate money, and so in my opinion it loses nothing of its legality as a result of its introduction in the Legislative Council. Statutory authority for the appropriation of sufficient money for the payment of salaries to all members of the Victorian Parliament is contained in The Constitution Act Amendment Act. Since further power is contained in The Constitution Act to alter the total number of members, it follows that statutory authority already exists for the appropriation of money sufficient for the payment of their total salaries.

Almost every Act of Parliament, except those specifically drafted to the contrary, has some effect of adding to the cost of Government. Although the effect of this measure may be to add to that cost, the addition will not be comparatively substantial. On the question of precedent, as a matter of courtesy it seems reasonable that support should be given to the precedent that a measure which concerns the proceedings of a particular House should emanate from that House.

Question—That the words proposed to be omitted stand part of the question—put.
